

Describe the scene depicted in the image, focusing on the visibility of lane lines, presence of vehicles or obstacles, weather conditions, and any other relevant details. Don't give any scores.

The scene depicts a city scene at daytime after a snow. Lane lines are visible. Thick snow piles on the side of the road, and several cars are waiting for the green light.

Rating blurred image during daytime: [Score 0-10] – Rate the overall image clarity/sharpness on a scale of 0-10, where 10 is extremely blurry/out of focus and 0 is tack sharp, with no visible blur.

The overall image clarity/sharpness during daytime conditions scores 2 out of 10, with some blurriness in the image.

Rating Lane Lines Invisibility in the image due to Snow: [Score 0-10] - Rate if snow is obscuring the lane lines.

The lane lines invisibility in the image due to snow is 3, as the lane lines are mostly visible despite some blurriness due to snow on the road.

Rating Vehicles or Other Objects Covering Lane Lines: [Score 0-10] – Rate if lane lines are covered by vehicles or objects.

The vehicles or other objects covering lane lines score is 2, indicating the vehicles are partially covering the lane lines.

Rating visibility of Lane Lines: [Score 0-10] – Rate the overall visibility of the lane markings.

The visibility of lane line score is 7, as they are mostly visible despite some blurriness due to snow on the road.

Confidence Score = 7
